Management Buck Hunt at Allen Creek Lodge

Enjoy the beautiful property at Allen Creek and harvest a nice buck.

Think of this hunt as an opportunity to take a youth, elderly parent or someone that has always desired to shoot a big buck and hasn't yet. This is good for one hunter and guest (parent) to go up to Allen Creek Lodge in Bitely, MI for a management buck hunt. You will arrive in the mid morning eat lunch, practice with gun, get a tour of the property, eat dinner and go out for the evening hunt and next morning if needed. They have an incredible property with tons of deer and great accommodations. The hunt will be videoed by one of their guides so you will be able to share this experience with others. This can be redeemed from Mid September to Mid October (based on availability of other hunters). You can use your own gun or borrow one of theirs (.243 you can practice with). The buck you will be shooting will be an older 'management buck' that could score up to 140". The guide will be there to help you decide which buck to harvest.

INCLUDED:

Meals
Lodging
Video hunt
Blinds
Guide
Gun (if needed)
Processing of deer
