

Sportspersons Ministries International

Coaching Agreement

This agreement covers three on-site coaching visits that are designed to help you to develop and sustain a ministry to outdoor people. This is a personalized approach that focuses on helping you develop an outdoors ministry that fits the unique culture and specific needs and interests of your church and community.

We begin by helping you to focus on the reason for your ministry, how it will fit into your church, and who you will target. From there we move on to helping you plan events and activities that fit your focus and your location. Any specialized needs or interests will also be addressed.

This coaching can also be used to help you restart, refocus, and re-energize an existing ministry.

Coaching Costs are as follows:

- **The cost of this package.**
 - **is \$600** (plus travel and lodging) for the first year. This involves two nights or the equivalent of coaching. It is designed to build a base for ministry and assist you in making plans for the first year. Email and phone coaching continues throughout the year. **An addition \$300** (plus travel and lodging) **is expected for the next year.** This will involve one evening of evaluation and then assist with plans for a second year of ministry. When distance is involved, it usually works best to do the initial coaching over two evenings in a row or on a weekend, so that travel costs are kept to a minimum.
- **Specialized Coaching.** On-site visits focused on a specific purpose normal would cost \$300 plus travel and lodging expenses.
- **Regional coaching.** If more than one church is involved at the same time and location, we will work out a reduced rate and share travel costs.
- **Special arrangements can be worked out for planning one activity. to speak at an event (e.g. at a wild game dinner), or to help plan and speak at a men's retreat or conference.**
